5305VR

2-Way Security & Remote Start System

Pre-cool your car in summer or pre-heat in winter. Start your engine from up to 400 metres away with this 2-way 5305VR Viper remote start + security system. This system comes with a 4-button LCD remote and several features, such as keyless entry, immobiliser, SmartStart compatibility, dual stage shock sensor with a 6-tone siren that'll provide a warning chirp if someone lightly bumps your car and Starter Kill which prevents hot-wiring. Confirm commands and receive alerts via the remote with 2-way system communication.
