Professional 2-Way Public Address Speakers

Every model features rugged nylon fibre and ABS moulded cabinets with carry handles inbuilt - designed with portability in mind. The Redback Club series offer excellent audio performance for clubs, pubs, venues & places of worship. Whilst the Biema series offer a 'no compromises' design approach for professional users, DJs, bands and hire companies. All models allow for speaker stand mounting via a top hat recess in the base. Passive models can be connected via Speakon, whilst active models feature balanced XLR & unbalanced 6.35mm inputs. All active models allow the music signal to be daisy-chained to extra speakers. Redback active versions offer RCAs for direct connection to a music source. For added flexibility, C 0991 and C 0993 add MP3 playback functionality from a USB stick or SD card. These speakers come in a range of sizes depending on the size of venue and crowd you have.

Features • Rugged moulded ABS construction • Inbuilt carry handle • Top hat recess for stand mounting • Passive speakers use Speakon connection • Ideal for small or large venues • Biema series ideal for DJs bands and hire companies • Active powered range set up in seconds, just plug in an input and switch on! • USB/MP3 models are great for gym classes • Active models feature balanced XLR and unbalanced 6.35mm inputs • Wide frequency range • Daisychain outputs for easy set up
