

Professional 4MP AHD Real Time CCTV Surveillance Packages

Upgraded for 2019: Now with 4MP AHD recording on each channel & hybrid video recording for integration with up to 16 IP cameras (IP cameras not included in package).

**A total home or small business solution.**

- Includes cameras, digital video recorder, connection leads & power supplies.
- Easily installs in just a few hours.
- Ideal for home or office.
- Suitable for DIY
- Just add a hard drive and plug it in!

Professional grade Hybrid Video Recorder (HVR).

The HVR includes professional grade features such as adjustable video quality, H.264 compression, external USB drive support, HDMI monitor connection, file management, date/time stamping, IR remote; schedule & motion. Ethernet connection provides the convenience of remote monitoring on most platforms and smart devices. CVI, TVI 2.0, TVI 3.0 and ONVIF compatible IP cameras may also be connected. Connect up to 16 IP cameras at once!

High spec cameras.

Each kit includes infra-red equipped cameras providing excellent quality picture during both day and night. Fitted with wide angle 2.8mm lenses for wider coverage. All cameras are IP66 weatherproof allowing you the flexibility of mounting indoors or in exposed outdoor locations.

Package contents

- H.264 digital video recorder.

4 Channel Wireless 4MP CCTV Surveillance Package

This wireless surveillance system takes the hassle out of wiring up cameras, it simply connects to your home wi-fi router and automatically connects to the included cameras for multi-channel recording. Power supplies for each camera are provided. Setting up your mobile phone access is streamlined thanks to QR code setup, allowing you to monitor the cameras from work or whilst on holiday. The cameras and digital video recorder offer full HD 4MP footage recording with day and night recording thanks to infra-red LEDs in each camera. Cameras are fitted with wide angle 2.8mm lenses for greater coverage. A HDMI and VGA output is provided for connection to a monitor for playback and live viewing. USB port for footage archival. Includes 1TB hard drive (pre-installed).

Package contents

- 9 channel H.264 network video recorder (NVR) with 4 wireless channels.
