**Outdoor Passive Infra Red (PIR) & Microwave Detector**

Incorporates two PIRs and a microwave sensor for outdoor detection applications. The use of multiple sensors dramatically reduces false triggering in outdoor environments with more ambient movement unrelated to intrusion. The housing is waterproof and has internal screw recesses which can be drilled through for flat wall or corner mounting. 12m x 12m detection range with standard lens. Includes pet lens and curtain lens for adjusting detection ability. Size: 160 x 65 x 51mm.

- Features**
- Two PIR and microwave detection sensors
  - Automatic anti-masking setting
  - Microwave sync
  - EI, OR, AND detection modes
  - Adjustable sensitivity
  - Alarm type memory
  - Anti-white light filter
  - 18 beam fresnel lens with 4 plane down view
  - Pet lens <25kg
  - Curtain lens (12m x 2m)
  - Vertical adjustment
  - Waterproof housing
  - Alarm memory
