CB Type Fist Microphones

Low impedance, 500Ω, omni-directional, dynamic microphone with curly cord (including switch pair). Suitable for CBs, radio transceivers etc. Supplied complete with mounting clip. Tailored frequency response 300Hz - 6kHz. The C 0334 model is fitted with a 5 pin XLR plug which suits the A 4575A Alert/Evac. controller. See website for wiring information. Lead lengths listed are unstretched.

Price Each		RRP	2+	5+
C 0333	CB mic with bare ends - 0.5m lead	22.50	20.25	19.50
C 0334	PA mic fitted with 5 pin XLR	32.95	29.75	26.50
C 0332	PA mic fitted with 5 pin mic connector	31.95	28.95	25.75
C 0335	PA mic balanced insert with bare ends	26.95	24.50	22.00
C 0336	Spare microphone mounting clip	2.60	2.30	2.05

Supermarket Handheld Announcement Microphones

This incredibly sturdy all metal microphone is built to survive the rigours of supermarkets & fast food restaurants. Redback have made several key enhancements to this model, including added screening for use next to cash registers & computer equipment; an improved cable strain relief for added longevity. C 0325 & C 0327 include PTT pair for muting auxiliary inputs. Fitted with a heavy duty curly cord. C 0324 & C 0325 both include wall mounting clip.

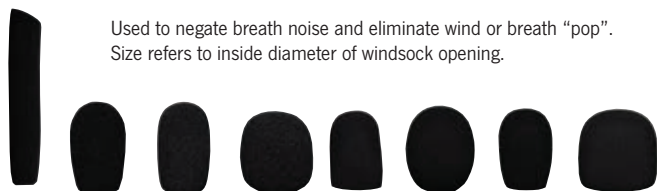

SPECIFICATIONS

Type:	Dynamic (moving coil)	Sensitivity:	-68dB ±3dB (0.25mV)
Polar Pattern:	Cardioid	Frequency response:	50Hz - 15kHz
Impedance:	600Ω		

Price Each		RRP	2+	4+
C 0324	Fitted with 3 Pin XLR	119.00	109.00	99.00
C 0325	Fitted with 5 Pin XLR	119.00	109.00	99.00
C 0327	Fitted with 1.5m bare end lead & 19" gooseneck	149.00	129.00	119.00

Foam Windsocks

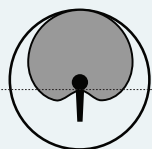

Used to negate breath noise and eliminate wind or breath "pop". Size refers to inside diameter of windsock opening.

Price Each		RRP	10+	25+
C 0347	14mm suits (C 0361 shotgun mic)	10.95	10.50	9.95
C 0346	7mm (suits C 0375 mic)	2.50	2.25	2.00
C 0338	8mm (suits C 8911 aerobics headset mic)	1.95	1.80	1.60
C 0337	12mm (suits lapel mics)	1.95	1.80	1.60
C 0340	20mm	1.95	1.80	1.60
C 0345	10mm	1.95	1.80	1.60
C 0342	27mm	1.95	1.80	1.60
C 0344	40mm (suits most Redback UHF handheld mics)	2.75	2.50	2.20

What's a cardioid polar pattern?

Cardioid microphones are designed to only pick up sound at the front and side of the mic head. The mics ability to pick up sound at the rear of the head is limited to reduce feedback and extraneous noise. The term cardioid is used for any mic with a "heart" shaped polar pattern. This type of mic offers excellent response, directionality and operating distance.

Professional Unidirectional Dynamic Microphone

This excellent professional dynamic microphone is suitable for the most demanding vocal applications. Being a unidirectional (cardioid) microphone its pickup pattern reduces noise from the rear and focuses on the desired sound source reducing background noise and feedback. The frequency response is tailored for vocals and the low-frequency roll off reduces handling noise and feedback.

SPECIFICATIONS

Polar Pattern:	Cardioid (unidirectional)	Sensitivity:	-72dB ±3dB
Impedance:	250Ω	Frequency Response:	60Hz-16kHz

Price Each		RRP	2+
C 0388		125.00	115.00

Studio Quality Entertainer's Microphone

This fine quality microphone has been styled on the famous Shure™ Bros SM58. In our opinion the reproduction is every bit as good as the genuine article. Housed in a sturdy diecast body and fitted with an excellent silent action reed type on/off switch we are delighted to have included this superb microphone to our range. Supplied with a 6m heavy duty XLR lead and carry case.

Features reversible plate for locking the switch permanently ON. Desirable for vocal applications.

SPECIFICATIONS

Polar pattern:	Cardioid (unidirectional)	Impedance:	600 Ohm
Housing material:	Zinc diecast	Sensitivity:	-75dB ±3dB
		Frequency response:	50Hz-16.5kHz

Price Each		RRP	2+
C 0392		119.00	109.00

Drop Proof Balanced Microphone

This balanced microphone has a unique specially designed grill that can withstand being dropped without losing its shape. Ideal for schools or hire companies. The tough zinc diecast housing has a 3 pin XLR male connector and on/off switch. It is supplied complete in carry case, mic clip and 5m twin shielded balanced lead (3 pin XLR female to 3 pin XLR male).

SPECIFICATIONS

Polar pattern:	Cardioid (unidirectional)	Impedance:	600 Ohm
Housing material:	Zinc diecast	Sensitivity:	-72dB ±3dB
		Frequency response:	50Hz - 15kHz

Price Each		RRP	2+	5+
C 0383		55.00	50.00	45.00

Super Cardioid Balanced Microphone

Features super cardioid pickup pattern to eliminate feedback and rubber mounted insert to reduce handling noise.

Features a well weighted zinc diecast housing with 3 pin XLR male connector and on/off switch. It is supplied complete in carry case with 4.5m twin shielded balanced lead (3 pin XLR female to 3 pin XLR male).

SPECIFICATIONS

Polar pattern:	Super cardioid (unidirectional)	Sensitivity:	-74dB ±3dB
Housing:	Zinc diecast	Freq. resp.:	50Hz - 16kHz
Impedance:	300 Ohm ± 30%		

Price Each		RRP	2+	4+
C 0384		85.00	80.00	70.00
